Independent Study Procedures & Contract

“Independent Study” requires that the student work independently of the faculty member (instructor) on assignments and/or projects that will measure a student’s success in achieving course objectives/competencies. The “independent study” format relies heavily on the student’s own initiative, the availability of resources to which the student has access, and a minimal amount of ongoing monitoring or instruction from the faculty member. The course must be qualitatively consistent with all other campus courses and must appear on the student’s semester schedule. Independent study does not mean that the course is a distance education course.

Guidelines and Information With approval from the academic Dean and Department Chair, independent study is an option for only those students who meet the following criteria:

1. Are in good academic standing as of the previous semester of college enrollment
2. Are unable to schedule the course as offered on the schedule of classes and who have extenuating “documented” circumstances or situations that prohibit scheduling the course in later semesters of enrollment
3. Have successfully completed courses that provide appropriate background to the independent study course
